Description

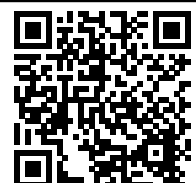

A magnificent set of Victorian polished steel fire irons with decorative brass handles and all in good condition. Together they weigh 3.5kgs. They appear not to have been regularly used, and the shovel is cleaner than may appear in the images because of the reflection of light. The irons measure approximately 73cm in length; the shovel is about 19cm in length and 17cm across with a harp design in the centre. Postage and packing for mainland UK is included in the price. For outside areas or abroad please contact us for a delivery estimate.
