Price

Sold**Item Reference: SA856806****Date of manufacture: 1900**

Dimensions

Height = 230 cm (90.6")

Width = 320 cm (126.0")

Description

Just a superb piece of tribal art. Never before seen, this primitive form of naive art is strongly reminiscent of ancient cave paintings. The elongated bodies of goats laid over a light blue background with simple floral infielders is very powerful. The image grasps the viewer firmly by the eye and doesn't let go- I absolutely love it and can say after nearly 30 years of specialising in piled tribal trappings I have not seen anything quite like it.
