Date of manufacture: Edwardian

Dimensions

Height = 46 cm (18.1")

Width = 28 cm (11.0")

Depth = 25.5 cm (10.0")

Description

A 1930's Geographia 10" world globe on a cast iron base. The globe surface is worn in some areas but good in others. It is sound and has not been touched so it shows its age ie there are some losses and fading. There are no dents or holes. There is a good patina and colour to the surface. The photographs show the condition well so please look carefully. The globe rotates correctly and stands very well with the right fittings top and bottom. The base is in good condition with cast foliate decoration and stylized lions paw feet. The area around the UK is faded unfortunately. Max 46 cm high diameter 25.5 cm OVERSEAS buyers please ask for shipping costs before purchasing.
