Description

Gents 1950s Roamer Popular wrist watch. The watch has a signed 15-jewel MST 405 hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The main body of the case is chromium plated while the case back is stainless steel. The case has some wear and surface marking but very acceptable for a 1950s piece. The signed case back states that the watch is water protected but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial is in very nice condition and has original hands, a subsidiary seconds dial and outer minute markers. A new leather strap has been fitted. The watch comes in a Roamer presentation box.
