Description

Gents Seiko Sportsmatic wrist watch, 1964. The watch has a 17-jewel automatic movement which is working nicely. You can sometimes hear the rotor moving round. The watch is a good wearable size at 36mm diameter excluding the lugs. The case is gold plated and it is in beautiful condition. The stainless steel case back has a short scratch, probably where the back has been removed in the past. The lens is in super condition. The signed dial is in its original finish with original hands, seconds sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
