

SA858684

1930s Swiss pocket watch

Price

Sold**Item Reference: SA858684****Date of manufacture: 1930**

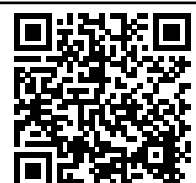

Description

1930s Swiss pocket watch. The watch has a good quality Swiss stem-winding 17-jewel (five adjustments) movement, which is working nicely. The movement has Geneva stripes to the plates, a swan neck regulator and a Breguet hairspring for enhanced precision. The watch measures 47mm diameter excluding the winding crown and the triangular loop. The case is the gold filled Moon model from the Birmingham watch case maker Aaron Dennison. The case is in lovely condition with just the odd minor mark, nothing serious at all. The acrylic lens is in lovely condition. The dial is in its original finish and unusually, it has a ring of Greek key patterning. Blued steel hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
