Height = 50 cm (19.7")

Width = 37 cm (14.6")

Depth = 15 cm (5.9")

Description

A really superb example of these beautiful and very popular wall clocks. A 12" white painted dial with black Roman numerals and spade hands, contained within a brass bezel. The mahogany case is beautifully polished with a wonderful rich, warm patina that only age can produce. It has tastefully carved grapevine "ears" to the lower half of the case and a glass lenticle through which the pendulum can be seen working. It is a particularly attractive clock, having a very narrow surround to the dial, which always gives that extra touch of elegance. There are inspection doors to the sides and a key lockable door to the underside. The 8 day, chain driven fusee movement has just been fully overhauled by our BHI registered staff and carries our usual 12mths full parts and labour guarantee. A real quality clock. All cards accepted.
