Description

1920s Swiss full hunter pocket watch. The watch has a good quality 15 jewel Swiss stem-winding movement which is working well. The movement is protected by an inner hinged cover which has some light surface marking from use. The watch measures 50.4mm diameter excluding the winding stem and the loop. The case is gold plated and is the Star model made by the Dennison Watch Case Company. The case has light surface marking from use and a few small "dings" to the front and back covers but overall it is in nice condition for a 1920s watch. The winding crown pushes in to release the front cover. Inside, there is an acrylic lens which is in nice condition with just light marking from use. The white enamel dial is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box.
