Description

This is an antique library telescope. An English, brass astronomical mounted refractor by Dollond of London, dating to Victorian period, circa 1890. Perfect for bird watching, landscape appreciation, wildlife stalking, or maritime observation. Equally suitable for observing the night sky. Displays consistent colour throughout and a desirable aged patina Primary barrel shows light indentations commensurate with age and use Striking brass brightwork presented in eye-catching, original order By the renowned Dollond of London Single draw tube extends smoothly, focused by knurled wheel moving an internal rack and pinion Maker's mark engraved to the trailing edge of the primary tube Attaches to the elegant tripod with two brass turn screws and rotates fore and aft Standing steadfast upon a trio of slipper feet This is a delightful antique library telescope, a pleasingly patinated example with over a century of enthusiastic use. Ideal for observing the night sky in comfort. Delivered polished and ready to be enjoyed. Dimensions: Closed Length: 97cm (38.25") Fully Drawn Length: 103cm (40.5") Objective Diameter: 50cm (19.75") We offer a 100% satisfaction guarantee with al...
