

SA863371

Antique Swiss pocket watch and chain

Price

Sold**Item Reference: SA863371****Date of manufacture: 1920**

Description

Antique Swiss pocket watch and chain. The watch has a Swiss seven-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the 10ct gold filled Moon model from the Birmingham based watch case maker Aaron Dennison. Dennisons manufactured cases for various watch makers. The case back has some fairly gentle unevenness and light surface marking but overall, the condition is good for a 1920s piece. The watch glass is in lovely condition. The dial has a hairline crack running through the centre but it is faint. Other than that, the dial is in good condition with original hands, a subsidiary seconds dial and an outer minute track. The watch comes with a single rolled chain, 28cm long. The watch and chain come in a new presentation box.
