Description

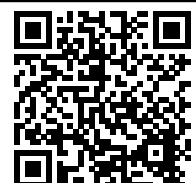

A beautiful antique Edwardian leather top desk in burr walnut. This was made in England, it dates from around the 1900-1910 period. It is of superb quality, there are stunning burr walnut grain patterns on the front and figured walnut on the sides, back and top edges. The inset green leather top is gold tooled and hand coloured, this is finished nicely on all sides so can be used as a free standing item. It sits on cabriole legs with acanthus carved knees, and has gorgeous high quality brass handles. We have recently had this re-polished, the condition is excellent for its age.
