Description

This is an incredible early 20th century French industrial work bench. Great patina with original paint and iron work. The top is three thick planks with great pale colour to them. The piece would make a very impressive console table, shop counter or kitchen island. Extremely heavy and structurally solid. One of the most impressive work benches I have ever had the pleasure to own. Height 83cm Length 320cm depth 85cm Price includes UK mainland delivery
