Description

Gents Omega automatic wrist watch, 1962. The watch has a 24 jewel automatic movement, calibre 552, which is working nicely. This movement was in production from 1958 to 1969, the serial number on this particular watch is 19,999,994 which dates it back to 1962. The watch measures 32mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated while the case back is stainless steel. The case is in good condition, just a tiny amount of rubbing on the tips of the lugs and a little surface marking to the case back. Signed Omega winding crown. The inside of the case back has the Omega logo and the case reference 161.002 which is correct for the 552 movement. The lens is in good condition. The signed dial is in its original finish with original hands, seconds sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
