Description

A beautiful example of these ever popular wall clocks. The golden oak case retains its original French-polished case and has a lovely age related patina. The 7" silvered dial has black Arabic numerals and is in excellent condition. It is complimented by a silvered pendulum which both contrast beautifully with the golden oak case. There are bevelled glass panels to the lower half of the fully opening front door. The 8 day movement strikes the Westminster Chime on the quarters and the hour. Very importantly, it strikes on steel rods giving a very clear, crisp tone. It is fitted with a STRIKE/SILENT facility. The movement has just been fully overhauled by our BHI registered staff and carries our usual 12mths full parts and labour guarantee. Once again our photographs fail to show the true beauty of this clock. All cards accepted.
