Description

George III Mahogany Bird Cage Tilt Top Table. We bring to you this lovely early George III Mahogany bird cage tilt top table believed to be made around C1770. This table is in a lovely original condition which we have just enhanced by cleaning and waxing this table preserving its beautiful original polished finish with its lightly faded colour with lots of patina and charm. The top of this table is one piece of solid Mahogany with no joints and has no bowing or twisting to it. This table features a bird cage base and tilting top mechanism which easily comes apart by removing a simple wedge. The turned central pillar features simple spiral flutings to the bottom section and the table stands on its lovely 3 shaped feet with no breaks or repairs ever carried out. This very rare table is in a superb condition for its age, the joints are all as tight as they should be with no wobbles. Please note this item is in beautiful condition for its age as shown in the photographs below however being an antique item it does have the odd bump here and there. However, we feel that these points are which adds charm and character to a piece. Dimensions Height: 695mm Diameter: 760mm ...
