Description

A 1964 Omega Speedmaster wristwatch. A black dial with lume filled 5 minute markers. Three recessed subsidiary dials including subsidiary seconds and chronograph counters. A stainless steel case with rarer straight/flat lugs, in contrast to the more common lug style. A fixed tachymetre bezel. Omega winding crown. A 17 jewel manual wind caliber 321 Omega chronograph mechanism. Case reference 105.003 64. Case width 40mm. This watch has been in possession of a former Omega agent as part of a personal collection, since shortly after it was made. This is the first time this watch has been made available on the open market and comes complete with the label attached to it by its former owner, specifying the case reference and serial numbers. The strap is a vintage example, lightly used. This watch also comes with an accompanying Omega strap fitted with a steel buckle and an Omega outer and inner box. From Kembery Antique Clocks Ltd you can expect a genuine wristwatch supplied with a presentation box that is in full working order and sold with 12 months guarantee. Free UK tracked, insured and signed for delivery on a day of your choice, International deliveries please contact ...
