

SA867161

1930s Revue pocket watch and chain

Price

Sold**Item Reference: SA867161****Date of manufacture: 1930**

Description

1930s Revue pocket watch and chain. The watch has a Swiss stem-winding movement, identified as by Revue, which is working nicely. The movement is protected by an inner hinged cover. There is marking to the edge where the cover has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The main body of the case is gun metal while the bezel is silver, probably a later replacement, but it sits nicely with the gun metal. The acrylic lens is in good condition. The dial has a horizontal hairline crack running across the centre although it is quite faint. The watch comes with a single nicel chain, 27cm long including the T-bar and the clasp. The watch and chain come in a new presentation box.
