Description

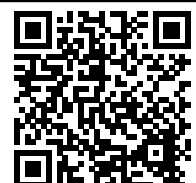

This black painted teak toolbox is very well made with fine tolerances, it has a tray with handles that fits tightly into the box and locks on both ends with keys. I think it is for the running board of a car from the 1920s or 30s, there are no markings to indicate what car but the quality of the piece would indicate an expensive one. Size: Height - 10" (25.5cm) Width - 26.5" (67.5cm) Depth - 9" (23cm)
