Price

Sold

Item Reference: SA869716

Date of manufacture: 1880

Dimensions

Height = 14 cm (5.5")

Width = 13 cm (5.1")

Depth = 13 cm (5.1")

Description

A late Victorian white stoneware tall jelly mould dating to c1880. The mould is made in a tall square cone shape. Inside it is moulded at the four corners with tall double panels ending in inverted foliage moulding. In the middle of each side is a channel forming a triangular mould. The top centre is moulded in a raised eight petal shape with a central, even higher, round tip. Quite some jelly would be formed in this mould! In excellent condition.
