Antique Omega pocket watch and chain

Price

Sold**Item Reference: SA871525****Date of manufacture: 1910**

Description

Antique Omega pocket watch and chain. The watch has a stem-winding movement which is working nicely. The movement is signed twice, once on a plate and once on the regulator, and it has a swan neck micro regulator and Breguet hairspring for enhanced precision. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in lovely condition, just light surface marking. Engine turned detail to the hinged case back, with a vacant cartouche to the centre. The watch glass is in good condition, just a little nibbling to the bevelled edge. The dial has a couple of hairline cracks but they are faint. The watch comes with a single chain, 24cm long including the T-bar and the clasp. The watch comes in a new presentation box.
