Description

A very stylish 3 piece glass and enamel dressing table set from the Art Deco era comprising chromium plated atomizer, glass stoppered scent bottle and a most unusual rectangular lidded bowl. The condition is good, there is very slight wear to the chrome on the neck of the atomizer, this is not immediately apparent and not detrimental to the overall appeal. This three piece set has all the glamour of the Art Deco period and would be a wonderful gift or stunning addition to any dressing table. c. 1930
