Description

Antique Waltham Traveler half hunter pocket watch. The watch has a seven jewel stem-winding movement which is working nicely. The gilt movement is fully signed and the serial number, 21,853,542, dates it back to 1918. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold plated Star model from the Dennison Watch Case. Dennisons was a Birmingham based case manufacturer who made most of the cases for Waltham UK. The case is in very nice condition. The front cover has a small central lens surrounded by enamel filled Roman numerals. The winding crown pushes in to open the front cover. Inside, there is an acrylic lens which has light marking, nothing too serious at all. The signed dial is in lovely condition. It has the special half hunter hour hand so that the time can be read when the front cover is closed. The watch comes in a new presentation box.
