Description

Gents 1960s Summit wrist watch. The watch has a 17-jewel Swiss hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is chrome plated and it is in lovely condition. The screw-on case back is stainless steel, it has one long but fairly light scratch across it. The lens is lovely condition. The dial is signed with the name Summit. This name was registered by a Julius Isaacs & Co, a watch and jewellery wholesaler based in Sheffield, who would have imported the watch to be branded and prepared for onward wholesale. The dial is in lovely condition with original hands, seconds sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
