Description

Antique Revue pocket watch for Harry Le Moine. The watch has a good quality 17-jewel Revue movement with snail cam regulator, screw set jewels and engine turned detailing to the plates. The movement is signed Akurat Prima which roughly translates as 'excellent time keeper'. The movement is protected by an inner hinged cover. There is some marking, mainly to the edge, where this inner cover has been opened in the past. The watch measures 50mm diameter excluding the winding stem and the loop. The case is the gold filled Moon model from the Dennison Watch Case Company. The Birmingham case maker supplied cases to various watch makers. The case is in lovely condition. The dial is signed with the name of the original retailer of the watch, Harry Le Moine, a Blackburn jeweller. The dial is in lovely condition and the gold minute markers are a handsome feature. Blued steel hands and a subsidiary seconds dial with the wording Akurat Prima above. The watch comes in a new presentation box.
