Depth = 7 cm (2.8")

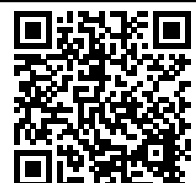

Description

For sale a rare George IV mahogany and Satinwood banded Wheel Barometer with Clock retailed by Tarelli of Northampton. This beautifully imposing wheel barometer is fitted with a very large twelve inch silvered and engraved dial measuring 28 to 31 inches of barometric pressure with weather indications around the inner circumference of the scale. It has a fine blue steel pointer and brass set hand all enclosed behind a spun brass bezel and convex glass front. The set hand is operated below by means of a brass dial and is accompanied at the base with a spirit level with an engraved face plate behind a convex glass stating the name, Tarelli (Warranted), Northampton. Above the main dial, the outswept neck provides space for a sedan clock with a superb 30-hour fusee movement and ceramic dial with a hinged bezel and convex glass to the front. The movement is engraved to the clockmaker, William Terry, London with the serial number: 98. Having been hidden behind its backplate, the movement looks almost as it would have when the barometer was manufactured. Terry was a prolific maker of these clock movements and his name is often encountered on both sedan clocks and clock baromet...
