Sold

Item Reference: SA874057

Date of manufacture: 1930

Description

A 1930s Rotherham & Sons silver pocket watch. The watch has a Swiss stem-winding movement which is working nicely. The movement is signed Rands (Rotherham & Sons) lever, 15 jewels, 3 adjustments, Swiss made. After the second World War, Rotherhams started importing movements from Switzerland. The movement is protected by an inner hinged cover. The watch measures 49.3mm diameter excluding the winding stem and the loop. The case is silver and has Birmingham hallmarks for 1936 with the case makers mark for the Birmingham watch case maker the Dennison watch case company. The case has light surface marking from use and a few mild "dings" to the back but overall it is in nice condition for a 1930s piece. The glass lens is in good condition. The dial is in lovely condition with blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
