Sold

Item Reference: SA876079

Date of manufacture: 1930

Description

1931 silver Revue pocket watch. The watch has a Swiss stem-winding movement which is working nicely. The movement, identified as being from Revue, is a good quality example with screw set jewels, Breguet hairspring for enhanced precision and a snail cam micro regulator. The movement is protected by an inner hinged cover. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1931 with a maker's mark for the Birmingham based Dennison Watch Case Company. Dennisons manufactured cases for various watch manufacturers. The case is in very nice condition and the engine turned details is still nice and crisp. There is also a central vacant cartouche. The watch glass has light marking across it. The double sunk dial is in good condition, the centre section has darkened with age. The watch comes in a new presentation box.
