Date of manufacture: 18th Century

Description

Large Antique Double Fusee Bracket Mantel Clock With Rare Pinwheel Escapement. This large antique double fusee mantel clock has a mahogany case with a lovely shaped top. The body of the case is then square with the front corners inlet and nice brass added to the inlet edges. The front of the case is then inlaid with brass below the dial. The base of the case then has a moulding to the front and side edges. Finally there is four small, round wooden feet to the bottom. The dial is then enamel and set out in black Roman numerals with a thin ring of dashes to the outside marking the minutes. Every five minutes is then marked in black Arabic numerals. The centre of the dial is then marked by the maker "JOHN GRANT LONDON". The dial is then finished by two lovely shaped hands as well as a domed glass set into the brass bezel. The movement is then wound from the front and accessed from the back. It comes complete with its regulating pendulum and winding key and ticks away as it should. The clock also chimes the number of hours each hour via a bell. The movement is then a double fusee example of the upmost quality with exquisite engraving. The escapement of the movement is ...
