Description

Gents Zenith wrist watch. The watch has a signed 17-jewel hand-winding movement, calibre 2542, which is working nicely. The watch measures 31mm diameter excluding the winding crown and the lugs so the watch would suit a slimmer wrist. The case is stainless steel and it is in good condition with just a few surface scratches to the screw-on case back. The lens is in lovely condition. The signed dial, with the star logo, is in good condition, just a little minor marking if viewed closely. A new leather strap has been fitted. The watch comes in a new presentation box.
