Depth = 10 cm (3.9")

Description

This is a stunning and unique 'hooded' watch by Vertex the premier maker during the 50s and 60s. Everything about this watch is quality, the engraving around the sides of the watch speaks for itself as well as the overall design which is just amazing. Incredibly it has its original box and paperwork, the original Lawsons sales invoice is for £415 in 1967 which was a huge amount at that time. The diamond set watch head is 16mm wide and set with approximately 2cts of first class diamonds. The bracelet is 9ct white gold, the watch lid is spring loaded and operates perfectly. The original Borel movement is very high quality and its just been serviced. This was obviously a watch which was bespoke made for a wealthy lady, a genuine piece of jewellery as well as a time piece. This watch has been fully and professionally overhauled, the process is highly detailed and meticulous.
