Description

Antique 1907 Waltham hunter pocket watch. The watch has a good quality 15-jewel stem-winding movement, grade 620, which is working nicely. The movement has beautifully patterned plates, screw set jewels and a Church 1892 patent regulator. The movement is fully signed and the serial number, 15750125 which dates it back to 1907. The movement is all protected by an inner hinged cover. The watch measures 50.3mm diameter excluding the winding stem and the loop. The case is the gold plated and was made by the Amrok watch case company, New York, U.S.A. The case has light surface marking from use but overall it is in nice condition for a 1900s piece. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in nice condition with only minor marking from use. The dial is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box.
