Gents 1930s Rotary wrist watch

Price

Sold**Item Reference: SA882232****Date of manufacture: 1930**

Description

Gents 1930s Rotary wrist watch. The watch has a Swiss 15-jewel hand-winding movement, signed with the Rotary wings logo, which is working nicely. The watch measures 22mm wide excluding the winding crown and 31mm high excluding the lugs so it would suit a slimmer wrist. The case is stainless steel and it is in lovely condition. The movement and case are not original to each other, the movement was probably replaced in its entirety as a more economical proposition. This often happened in the case of something like water damage where the whole movement may have been damaged. The convex lens is in good condition. The dial is in its original finish with original hands, a subsidiary seconds dial and an outer minute track. A new leather strap has been fitted. The watch comes in a new presentation box.
