Description

Circa 1910-1930 a fine quality Art Nouveau oil lamp with a beautiful decorative brass base and copper column. It comes with an original opaque glass shade decorated with cherubs and flowers. The photograph doesn't show the quality or elegance of this lamp and we will rephotograph it against a dark background to highlight the details and limit the reflection of the decorative base in the copper column. Every piece unscrews showing the quality of the workmanship - photo 8. The lamp measures approximately 62cm in height including the glass funnel and the base is about 21cm in diameter and all of the parts are in very good condition. Postage and packing for two parcels within the UK mainland only is included in the price; the shade will be sent separately to ensure it arrives safely.
