Description

A stunning antique plant stand table, also known as a jardiniere. This was made in England & I would date it from around the 1910 period. The frame is beautifully made from cast iron, with incredible details. Please enlarge all the images to see these. It even has well defined paw feet. The inset marble top looks to have been made slightly more recently. Under the frame there is some writing pressed in, it looks to read: Patent July 37. The overall condition is excellent for its age, the metal work has patina and darkening throughout, there is no damage to be seen. Width base – 18 inches , 46 cm Width top – 14 inches , 36 cm Width marble – 8 inches , 20 cm Height – 30 inches , 76 cm
