Description

This is a superb quality late 19th/early 20th century Spanish walnut cupboard. This was originally situated in the vestry of a Presbyterian church. It has large cupboard doors which each open to reveal spaces with adjustable shelves. The open space in the centre of the top was used to display statues and other religious ephemera. This would now make a wonderful kitchen cupboard as it offers plenty of storage space. The cupboard doors are solid walnut which is evident when viewed from inside. The whole cupboard turns flat pack as well and fits together very neatly. So easy to move into your desired space. Height 210cm Length 310cm Depth 45cm Price includes UK mainland delivery
