Description

Antique Swiss silver pocket watch and chain. The watch has a stem-winding movement which is working nicely. The watch measures 49mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the case back for Birmingham 1934, with a case maker's mark for Aaron Dennison. Dennisons was a Birmingham based case maker, supplying many different watch makers. The front and sides of the case are in good condition, the case back has some unevenness. The glass lens is in good condition, as is the dial. The watch comes with a single silver chain, 29cm long including the T-bar and the clasp. Each link on the chain has the lion silver mark, and one has the maker's mark for Chester 1922. There is also a later 1960 silver fob which has the initials AAD to the front. The back of the fob is blank. The watch and chain come in a new presentation box.
