

SA885521

Large 1940s Swiss pocket watch

Price

Sold**Item Reference: SA885521****Date of manufacture: 1940**

Description

Large 1940s Swiss pocket watch. The watch has a Swiss 13-jewel stem-winding movement which is working nicely. The watch measures 50mm diameter excluding the winding stem and the loop. The case is nickel and it is in lovely condition with just light surface marks but nothing serious at all. The thick glass lens with a bevelled edge is in lovely condition. The dial is in lovely condition. Originally it would have had painted detail to the numbers and hands but this has been removed over the years, probably because of any radium content. The watch comes in a new presentation box.
