Dimensions

Height = 30 cm (11.8")

Width = 25 cm (9.8")

Depth = 5 cm (2.0")

Description

A demantoid garnet ring of real class. It's increasingly difficult to find demantoids of this size, and this stone is a fine example. The slightly olive-y green garnet is internally clean and virtually glowing from within. The stone is secured in a coronet collet and flanked on either side by a pair of high white and bright quarter carat (approx.) round brilliant cut diamonds. On a slim, D-shaped yellow gold shank. Accompanied by a gemstone report from Gemmological Certification Services (GCS) stating the garnet is the demantoid variety. Cut – Cushion cut demantoid garnet and round brilliant cut diamonds. Colour – The diamonds are G. Clarity – The diamonds are SI1. Carat – The demantoid garnet is 1.01 carat. The combined approximate diamond weight is 0.50 carat. Size – N 1/2 (UK) or 6.75 (US). Complimentary sizing is available, can be sized up or down. Measurements – From the edge of one outer diamond to the other is 15.25mm. The ring is 7mm at the widest point. 5.4mm from the finger. Metal – 18k white and yellow gold. Hallmarked.

Internal Ref: 210310S369
