Description

A fantastic original Art Deco period long case grandmother clock in walnut. This was made in England, it dates from the 1930's. It is beautifully designed, is of excellent quality and is a great size. The walnut colour tones and grain patterns are gorgeous, and are offset beautifully by the stainless steel and glass face. This is in excellent overall condition, it comes with the original winding key and appears to be in very good working order. We are not clock experts so do not guarantee the movement 100%, however this does currently work well and has a nice Westminster chime on the hour and half hour. There is even a small switch on the face which allows you to switch the chime on or off. Width - 13 inches , 33 cm Depth - 10 inches , 25 cm Height - 56 inches , 142 cm
