

SA888408

Gents 1950s MuDu Doublematic wrist watch

Price

Sold**Item Reference: SA888408****Date of manufacture: 1950**

Description

Gents 1950s MuDu Doublematic wrist watch. The watch has an automatic 41 jewel movement which is working nicely. The rotor, which states that the watch has 21 jewels, is a later replacement. The watch measures 35mm diameter excluding the winding crown and the lugs. The main body of the case is gold plated and it is in good condition with just light surface marks, nothing serious at all. The screw-on case back is stainless steel, it states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. The lens is in lovely condition. The signed dial is in good condition with original hands and seconds sweep. There is very light marking to the dial but nothing too detrimental. A new leather strap has been fitted. The watch comes in a new presentation box.
