Description

Antique silver Buren pocket watch, 1918. The watch has a 15-jewel stem-winding movement which is working nicely. The movement has been identified as being made by Buren. The movement is protected by an inner hinged cover. The watch measures 50.6mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1918, with a case maker's mark for the Birmingham factory of Aaron Dennison. The case is in nice condition with only minor marking from use. The case has crisp engine turned detail to the back with a vacant cartouche to the centre. The glass lens is in nice condition with only the odd minor mark from use. The dial is in nice condition. The watch has blued steel hands. The watch comes in a new presentation box.
