Description

Antique English silver pocket watch, 1906. The watch has an English Coventry made stem-winding which is working nicely. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Chester 1906, with a case maker's mark for the Coventry silversmith William Bullock. The case is in lovely condition, just one small "ding" towards the edge of the case back. The glass lens is in lovely condition. The dial has a short faint hairline between 7 and 8 but otherwise is in lovely condition. Pin set hands. The watch comes in a new presentation box.
