Dimensions

Height = 15 cm (5.9")

Width = 27 cm (10.6")

Depth = 13 cm (5.1")

Description

A good example of an antique silver teapot. It is an elegant shape with reeded detailing, an angular wooden handle and a wooden knob finial. It is good quality, weighing a total of 547g. It is clearly hallmarked for Birmingham, 1906 and the maker J. Sherwood & Sons. It is in good condition for its age and displays beautifully. There are a few light marks on the wooden handle and it has had a small knock on the top. There are some minor signs of age and use, some general light surface marks and a small dink by the spout but no major dents or damages and it is certainly a very usable piece. The best description comes from the photos so please look at them all carefully and if you have any questions just ask. Tracked UK delivery £10, rest of the world £30.
