Dimensions

Height = 53 cm (20.9")

Width = 38 cm (15.0")

Depth = 38 cm (15.0")

Description

Circa 1900-1920 a small very decorative brass four arm chandelier once lit by candles and with all of the original drops. It is more elegant and less 'cluttered' in appearance than it appears in the images and we hope to improve on the photographs soon. The chandelier measures 53cm in length from the hook at the top of the column to the bottom of the glass ball, and is approximately 38cm in width. It has been rewired by a professional electrician and an additional 30cm length of chain and a ceiling fitting is included. The original drops are unusual including the some as flower shapes, and all have little brass 'caps' holding them in position. Postage and packing for the UK mainland only is included in the price and for remote areas and abroad please contact us for a delivery quote.
