Description

Dating from the 1930's this charming ceramic coffee set is hand painted with sprays of spring flowers. 'Fragrance' was made by the Burleigh pottery in Stoke on Trent, this Art Deco set comprises a coffee pot, six cups and saucers, a cream jug and sugar bowl. There is a minute short hairline to one of the cups, this is extremely hard to detect, in fact almost invisible. The rest of the set is in pristine condition. The shapes of the pieces are very much in the Art Deco style, as is the colour pallet and crispness of the painted decoration. c. 1930 Height of coffee pot: 8" 20 cm
