Price

GBP 140

| USD \$189 | EUR 164

Item Reference: SA892321

Date of manufacture: 19th Century

Dimensions

Height = 17 cm (6.7")

Width = 7 cm (2.8")

Description

A Brass Tilley Lamp, converted and fully functioning with electricity. An unusual piece and sought after. Tilley is a generic name for a kerosene lamp. The Tilley lamps are named after John Tilley who invented the hydro-pneumatic blowpipe in 1813 in England. The globe is in very good condition. The stem is also in good condition but leans a little as seen. (Price shown is without the shade)
