Description

Antique full hunter pocket watch and chain. The watch has a Swiss 15-jewel stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition, a little light rubbing to the plate but nothing serious at all. The winding crown pushes in to open the front cover. Inside, there is a glass lens which is in very nice condition. The double sunk dial has Breguet style hands with a blued steel finish, a subsidiary seconds dial and an outer minute track. The watch comes with a single chain, 33cm long including the T-bar and the clasp. There is also a locket fob for a photograph. The watch comes in a new presentation box.
