Description

Antique Doxa gun metal pocket watch. The watch has a stem-winding movement, signed Doxa, which is working nicely. The movement is protected by an inner hinged cover which is beautifully detailed with images of medals won in Liege in 1905 and Milan in 1906. The watch measures 51mm diameter excluding the winding stem and the loop. The case is gun metal with gold embellishments, and it is in very nice condition. The watch glass is in lovely condition. The signed double sunk dial has a few hairline cracks but they are faint. The watch comes in a new presentation box.
