Description

A beautiful Indian solid silver bowl. It is unmarked but tests as high grade silver. I would date it to c1900. It is known as a Kashkul and has been engraved and chased. It is in super condition being free from dings splits holes and repairs, note only one snake has a loop, I do not know it is was made this way. It is a decent size measuring approx. 5.75 inches (14.6cms) long by 2.75 inches (7cms) wide by 3 inches (7.6cms) tall and weighs 116 grams. A beautifully designed high quality unusual piece.
