Description

A beautiful Indian solid silver bowl. It is unmarked but tests as high grade silver. I would date it to c1900. It has been wonderfully designed being supported on three legs and decorated with fish and animals. It is in super condition being free from dings splits holes and repairs. It is a decent size measuring approx. 3.5 inches (8.6cms) across by 2 inches (5.1cms) tall and weighs 64 grams. A beautifully designed high quality unusual piece.
